

The Colorado Department of Public Health and Environment presents

Joint Information Center (JIC) and Joint Information System (JIS) Training

Tuesday, September 12, 2006
8:30 am – 5:00 pm

University of Colorado Health Sciences Center - Fitzsimons Campus
Ben Nighthorse Campbell Building, Shore Family Auditorium

Learn about the principles, activation and operation of a joint information center in an emergency that is managed through incident command. The training will include a review of new procedures for joint information system/center operations for the Colorado Department of Public Health and Environment (CDPHE) and the Colorado Division of Emergency Management (CDEM).

This training will provide participants with:

1. Joint Information Center and System Procedures for Activation and Operations
2. JIC "Lessons Learned"
3. A Review of the New Colorado State Information Protocols
4. Hands-on Skill-Building

This training is intended for key decision makers and individuals who may be expected to work within a JIC or JIS at the state or local level in Colorado. This includes public information officers and other staff from agencies including, but not limited to:

- Public Health
- Emergency Management
- Public Safety
- Hospitals
- Mental Health
- Veterinary Medicine
- Agriculture
- Wildlife Management

Registration

You can register for this training on CO.TRAIN at www.co.train.org.

The registration link for this training can be found on the right-hand side of the screen under the "Upcoming Events" section.

Recommended Course Prerequisites: ICS 100 – Introduction to the Incident Command System, IS-700 – Introduction to NIMS, IS-702 – National Incident Management Systems (NIMS) Public Information Systems. All of the course listed above can be taken online via the [FEMA Independent Study Program](http://www.training.fema.gov) (www.training.fema.gov).
